

Sanitize Urinals and Toilets Without all the Effort

Negative restroom experiences discourage **66%** of patrons from repeat visits

2 out of **3** cleaning staff say **urine stains** and odor removal are among the **toughest cleaning tasks**

50% of all consumers would **warn** their **family** and **friends** if a restroom is unsanitary

Improper scrubbing or **harsh chemicals** can damage the porcelain on toilets and urinals, making them look **stained**

Odors and stains caused by uric acid build-up can be safely **eliminated** between cleanings with regular, **auto sanitizing flushes**

A **pleasant restroom** experience can **positively affect** productivity, mood and prosocial behavior

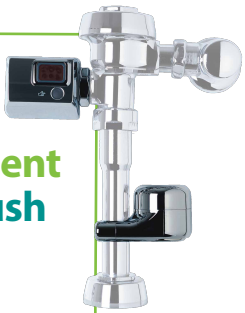

84% of consumers would **visit a business** based on **good recommendations** from others

By pairing the **nontoxic, biodegradable** and **safe for the environment Sanitizer** with **Auto Flush**

will automatically leave urinals and toilets fresh for every restroom user
