

Workplace EssentialsSM

for Your Business:

Health Clubs

Did you know?

- Our skin hosts millions of germs that come rolling off when we sweat. They can then be transferred to equipment by skin contact, sweat, or by a towel. Members who use the same equipment are exposed to the germs left behind by the previous user.
- A recent study showed that benign bacteria and the rhinovirus, which causes the common cold, were on 63 percent of gym equipment surfaces that had contact with hands.
- Equipment in a health club can also host: Staphylococcus, E. Coli, Candida, Diptheroids, and Streptococcus Viridans.
- MRSA outbreaks in health clubs are on the rise.

Are your members getting fit or sick?

Gyms have always been a breeding ground for germs. Your members can unknowingly be carriers of, or exposed to, these germs. Help protect your members and staff from cross-contamination by contacting Workplace Essentials and finding out how our fresh approach to restroom hygiene services will work for you:

***Feminine Hygiene
Air Care
Hand Care
Restroom Hygiene
Baby Care***

What Workplace Essentials can do for your business:

- Increase customer confidence and satisfaction
- Help reduce the rate of employee absenteeism
- Reduce the risk of cross-contamination and the spread of germs
- Encourage proper hand care with our hands-free products
- Reduce drain blockage
- Control water consumption
- Help assure that you are OSHA and ADA compliant
