

Workplace EssentialsSM

for Your Business:

Retail

Did you know?

- University of Arizona researchers tested shopping carts and found that their handles have more saliva, bacteria and fecal matter than public toilets.
- Four out of five germs that cause illness, including MRSA, Salmonella, E.Coli and Hepatitis A are spread by hands.
- Escalator handrails and elevator buttons are amongst the worst hot-spots for germs.
- Surfaces in a retail environment can harbor Staphylococcus Aureus, Streptococcus Pneumoniae, E.Coli and even Hepatitis B.

Are your customers getting more than they bargained for?

Retail environments are a breeding ground for germs. Some germs can remain on surfaces such as handrails, escalators, clothing racks, and elevator buttons for days. Protect your customers and staff from cross-contamination by contacting Workplace Essentials and finding out how our fresh approach to restroom hygiene services will work for you:
